_____   _____
ID#   Matriculated

_____

Minimum Unit Requirement   58

Students submit their academic portfolio at the end of the last fall semester for faculty review. This review ensures that each student is progressing as expected and that their work demonstrates the learning outcomes necessary to enter the final stage of the curriculum. If the review identifies areas for improvement, students will meet with the Chair to develop a plan for strengthening their portfolio and, when appropriate, adjusting their academic path to ensure continued success.
